

## Supplementing Cost Reduction

For 17 years, we have supplemented clients' abilities to obtain sustainable savings in over 100 categories in administration, operations, supply chain and technology.

## Give Your Company an A+ in Profitability

**Most businesses are unable to pursue every opportunity for cost reduction.** Source One can quickly extend your ability to realize savings in administration, operations, supply chain and technology investment.

Our creative approach is supported with detailed market intelligence developed in hundreds of projects, across more than 100 categories. Our dedicated support includes strategic sourcing, supplier evaluation and negotiation, and on-demand resources for contract management, proposal management, reverse auctions, benchmarking and cost recovery due to overpayments and billing errors.

We're confident our performance-based practice can help you secure immediate savings in a way that works for your organization. Call us today for a short overview of how we might help.

Independent Research demonstrates that businesses accessing independent procurement service providers outperform peers by **9%** on average. Source One has historically delivered **18% to 30%+** savings across all projects.
